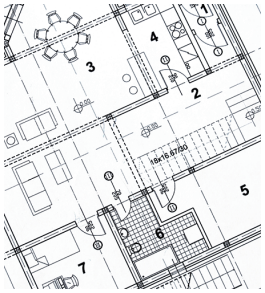
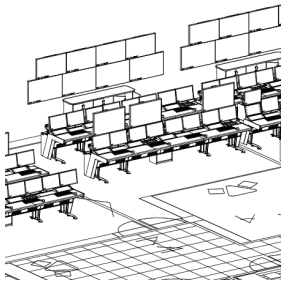
OUR PROCESS





1.DESIGN

Our experienced design team will work with you to develop solutions that meet your exact requirements. This includes detailed CAD drawings and high quality rendering of the initial phase to visualize your solution.

2.MANUFACTURE

We are proud of our high standards of manufacture and quality control. Our team combines experience and passion with the latest materials, cutting-edgetechnologies and processes so we can exceed your expectations every time. WVe welcome you to observe and track production with a factory tour.

3.IMPLEMENTATION

We make sure all of our consoles are easy to install for easy execution. The installation will match your final design plan to ensure we meet your specifications, and our team will ensure every piece of equipment is delivered safely and on time, giving you complete peace of mind.

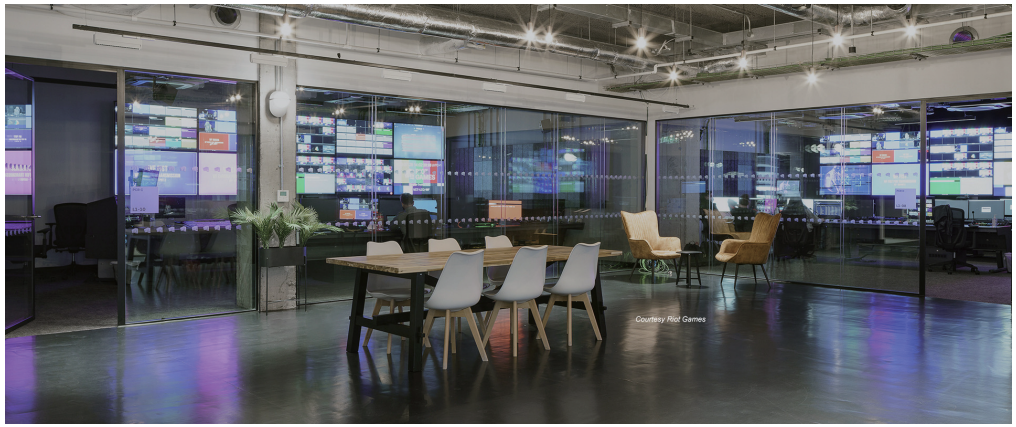
CASE STUDIES

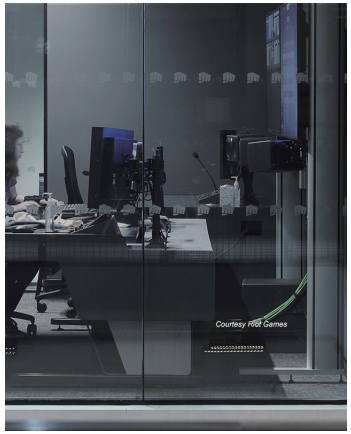
RIOT GAMES

Riot Games was founded in 2006 to develop, publish, and support the most player-focussed games globally, with its debut title the acclaimed League of Legends going on to become the most played PC game in the world following its launch in 2009.

The Dublin based Remote Broadcast Centre (RBC) powered by AWS was the first of a circuit of global broadcasting hubs originally launched under the codename Project Stryker that are strategically located around the world eight hours apart to create a 'follow-the-sun' broadcast model supporting live esports productions 24/7/ 365.

Mingle were engaged over a 4-month project lifecycle to initially design the Dublin based control room facility including planning the operational layout and the custom design of premium control room consoles.





TEAM:MEDIA

TEAM:MEDIA is very satisfied with the level of professional approach and customer care experienced during the cooperation with LundHalsey.

From the day 1 Mingle showed high interest in our project and understood our request and that was the key thing pushing our decision.

We are very happy that we have decided to cooperate with Mingle and that their furniture is in our MCR.

If there will be more need for similar solutions we will definitely look for them with Mingle, and yes we will and already did recommend them!

mediacorp

"THE QUALITY OF THEDESIGNS AS WELL AS THEFINISHED PRODUCTS NOTONLY MET ALL TECHNICALREQUIREMENTS ANDATTESTED TO A KEEN EYE FORAESTHETICS AND WORKPLACEORGANISATION,BUT ALSOCLEARLY INCORPORATEDMEDIACORP'S OBJECTIVE TOPROVIDE ITS STAFF PHYSICALWORK SPACES THAT HELPPROMOTE SYNERGIES..."

"I Would Not Hesitate In Choosing Lundhalsey For Future Projects. The Design, Quality And Flexibility Of Our New Desks, Combined With The Excellent Customer Service Of Lundhalsey, Are Some Reasons To Why I Would Definitely Recommend Them To Everyone Who Is Looking For New Control And Monitoring Surfaces."
